Extract: [Click here for the extract.](#)

The illustrated book is published on the occasion of the symposium "Management of Artists' Estates" with contributions or interviews by Dr Urban Pappi, Dr Thomas Köhler, Anna Kathrin Distelkamp, Dr Markus Heuel, Dr Jörg Wacker, Bernd Rühland LL.M., Frank Michael Zeidler, Christian A. J. Klein and Markus Eisenbeis.

The topic of artists' estates has been discussed many times recently - a sign that until now there have been more questions than solutions. With the symposium "Management of Artists' Bequests. Academic care, structuring, financing and marketing", VAN HAM Art Estate, in cooperation with the Berlin law firm dtb Rechtsanwälte, is addressing the topic of artists' estates from a new angle. The focus of the conference is on the legal and economic structuring of an artist's estate and its sustainable financing - topics that have usually been given far too little attention at previous events, or have been left out altogether.
