With Parkett magazine.

"There is method in his madness, madness in his method. Oehlen employs error as method, but if it is deliberate, is it error? Logic is more inescapable than it looks. It's not enough putting one foot in front of another; maybe you need to put one foot in front of somebody else's or put the foot in the mouth where it belongs."  
Glenn O'Brien Parkett no. 79, 2007.
